

CLASSROOM FACILITATION LEVEL ONE: AN INTRODUCTION

Some children with specific learning difficulties do not have the skills or expertise needed to work effectively on their own. They often need the support of a facilitator who provides instructional support and direction regarding specific tasks, working under the direct supervision of a qualified teacher.

This course is recommended for people with some experience in the field of education as well as for students and parents interested in working in inclusive educational settings.

COURSE OUTLINE Inclusive education and the role of the facilitator | Child development and Specific Learning Difficulties | Classroom strategies: modifications, accommodations and interventions | Practical application – case studies and time in the classroom

Oakley House Training and Support Centre, 68 Myburgh Rd, Diep River
